Ts. Dr. Mohd Azrul Hisham creates a tool to monitor physiological parameters o

4 August 2021

GAMBANG, 2 August 2021 - A researcher and Senior Lecturer from College of Engi
Pahang (UMP), Ts. Dr. Mohd Azrul Hisham Mohd Adib, 38, invented a device to monito
baby's health or known as the InfaWrap Device.

According to the Taiping, Perak native, the product is intended to measure newborns' h
body temperature.
