MoU signed between UMP and Hassan II University of Casablanca

A Memorandum of Understanding (MoU) was signed between Universiti Malaysia Pahang (UMP) and Has
October 11, 2018 at Morocco.

The MoU outlined collaborations in research, academic and student exchange programmes, dual de
postgraduates degree programmes. It would also pave the way for the establishment of smart partnerships

UMP was represented by its Vice-Chancellor, Professor Dato' Sri Dr. Ts. Daing Nasir Ibrahim while H2UC b

The event was witnessed by the Minister of Education, Dr. Maszlee Malik and the Director General, Depar
Dr. Siti Hamisah Tapsir. Also present at the event was the Director of International Office, Dr. Nik Aloesnita

Professor Dato' Sri Dr. Ts. Daing Nasir said H2UC owns a reputable School of Engineering.

"This is a golden opportunity for UMP to collaborate with the university especially in research since UM
University Rankings by subject in the field of mechanical and manufacturing engineering.

"Other areas with possible collaboration may include other science courses, natural resources and renewab

He also said another potential aspect of collaboration is in the field of business and management as H2U
and Management of Casablanca.

"It will be a good opportunity for UMP to explore further in the area of business engineering, similar to the
Germany," he added.

H2UC has more than 100,000 students, partly due to its distance learning approach and UMP is working v
lifelong learning principles through UMP Advanced Education.

Furthermore, UMP is committed to expand its learning and teaching in the 21st century paradigm via
Learning. The centre is responsible for UMP Collaborative Online International Learning and it is a member

UMP is an established and competency-based technical university specialising in the fields of engineeri
enhance and strengthen its international linkage.

The university has taken various initiatives to add to its educational excellence and has entered int
respectable parties to enrich its academic and research activities.

H2UC is a public university located in the industrial capital of the Moroccan Kingdom. It was set up in Se
