MoU signed between UMP and Hassan II University of Casablanca

A Memorandum of Understanding (MoU) was signed between Universiti Malaysia Pahang (UMP) and Hassan II University of Casablanca (H2UC) on October 11, 2018 at Morocco.

The MoU outlined collaborations in research, academic and student exchange programmes, dual degree programmes and postgraduates degree programmes. It would also pave the way for the establishment of smart partnerships.

UMP was represented by its Vice-Chancellor, Professor Dato' Sri Dr. Ts. Daing Nasir Ibrahim while H2UC was represented by Dr. Siti Hamisah Tapsir.

The event was witnessed by the Minister of Education, Dr. Maszlee Malik and the Director General, Department of Higher Education, Dr. Siti Hamisah Tapsir. Also present at the event was the Director of International Office, Dr. Nik Aloesnita.

Professor Dato' Sri Dr. Ts. Daing Nasir said H2UC owns a reputable School of Engineering.

"This is a golden opportunity for UMP to collaborate with the university especially in research since UMP is ranked 10th in the World University Rankings by subject in the field of mechanical and manufacturing engineering.

"Other areas with possible collaboration may include other science courses, natural resources and renewable energy," he added.

He also said another potential aspect of collaboration is in the field of business and management as H2UC has a School of Business and Management of Casablanca.

"It will be a good opportunity for UMP to explore further in the area of business engineering, similar to the University of Applied Sciences in Germany," he added.

H2UC has more than 100,000 students, partly due to its distance learning approach and UMP is working with H2UC to promote lifelong learning principles through UMP Advanced Education.

Furthermore, UMP is committed to expand its learning and teaching in the 21st century paradigm via the use of e-Learning. The centre is responsible for UMP Collaborative Online International Learning and it is a member of the International Association of Online Engineering Education.

UMP is an established and competency-based technical university specialising in the fields of engineering and technology. The university is committed to enhance and strengthen its international linkage.

The university has taken various initiatives to add to its educational excellence and has entered into various international and respectable parties to enrich its academic and research activities.

H2UC is a public university located in the industrial capital of the Moroccan Kingdom. It was set up in September 2017 by the merger of Hassan II University of Mohammedia and Hassan II University of Ain Chock.

The University strives to boost its existence, domestically and internationally and in terms of scientific research (123 laboratories, 10 centres for doctoral studies, 10 research centres, two research platforms and an observatory).

UMP welcomes 2,104 new students

A total of 2,104 new students registered for degree in this 2018/2019 academic session. Registration took place at UMP Gambang and at Student Activity Centre in UMP Pekan Campus.

Earlier, 36 international students from United Kingdom, Yemen, Somalia, Egypt, Bangladesh, Syria, UAE and Jordan registered for their study in UMP.

According to Deputy Vice-Chancellor (Student Affairs & Alumni), Professor Dato' Dr Yuserrie Zainudin, the students are from various fields of study including engineering, engineering technology, computer sciences, industrial management, applied sciences and commerce.

"We also offers dual-degree programme with Karlsruhe, University of Applied Sciences (HsKA), Germany and Northern Illinois University, United State of America.

"This year, UMP offers three new programmes to our undergraduates, namely Bachelor Degree in Electrical Engineering (Control Machine), Bachelor Degree in Electronic Engineering Technology (Computer System) and Bachelor Degree in Petroleum," he said after presenting RM1,000 incentive and certification of appreciation to the excellent students.

In the same event was held the giving ceremony for Education Incentive Scheme worth RM1000 to five students from the Student Affairs & Alumni Department and has been identified as having financial problems and having difficulties to continue their studies.

It is an initiative drive by UMP to raise fund and help those in need as well as to project UMP as a community-oriented university.
