They are Allahyarham Arman A. Rahim from the Registry Department, Allahyarham Said Ismail from the Faculty of Manufacturing Engineering and Allahyarham Abd Karim Ibrahim from the Property Management & Development Department (JPPH).

UMP, Etiqa help 200 asnaf children receive school

A total of 200 primary school students from 11 schools around Pekan involving children from low-income families received brand new school clothes and school necessities during the Back to School 2019 programme organised by Universiti Malaysia Pahang, Family Takaful Berhad and UMP Foundation in Pekan on 19 November 2019.

In attendance to present the contribution was the Dean of Student Services, Department of Student Affairs, Dr. Mansor Sulaiman and Chief Executive Officer of Etiqa Takaful Berhad Eastern Region, Tengku Saifuddin Tengku, at the UMP Hall, UMP Pekan Campus.

Also present were Pro-Registrar Abd. Rahman Safie, and the Director of the Centre of Industry and Community Engagement, Ir. Dr. Nurul Hazlina Noordin.

The Back to School 2019 programme was UMP and Etiqa Family Takaful Berhad's corporate social responsibility initiative to provide school necessities for students in need.

According to Associate Professor Dr. Mansor, the organisation of the programme was the result of close collaboration to reinforce the strategic network the two parties have built.

"UMP is always open and ready to explore the area and potential for strategic collaboration with Etiqa. This is a good example of the expertise of the university with a focus on Etiqa's core and affairs whether in the academic field or in corporate social responsibility."

"Within this alliance, social engagement initiatives will continue to be laid out to ensure that the general public can benefit from the university's existence."

"University management always welcomes any intent from whichever department, agency, government, private organisations or individuals to collaborate in various forms for public benefit," he said.

Meanwhile, Chief Executive Officer of Etiqa Takaful Berhad Eastern Region, Tengku Saifuddin Tengku, proceeded directly to UMP.

"Education is fundamental towards changing an individual's life to higher education; indeed it is important in building a better future."

"Etiqa has previously contributed RM130,000 as Student Zakat aid in 2019 and RM120,000 in 2018 to UMP Foundation."

"Starting from 2012, the estimate of Etiqa's contribution to UMP is around RM360,000 via various programmes."

As for the recipient of the welfare aid, a Year 5 student from Sekolah Kebangsaan Ubai, Muhammad Hafid, was seen smiling with his friends after receiving brand new school clothes and school supplies and cannot wait to begin the new school year.

Knowledge in entrepreneurship a boon for UMP

By: NOOR SYAHIDAH SABRAN, ENTREPRENEURSHIP CENTRE

Entrepreneurship Centre (MyPACE), Universiti Malaysia Pahang (UMP) organised a programme on awareness on the subject matter among its students, equipping them with the necessary knowledge about the national agenda on entrepreneurship.

The one-day programme was held on December 11, 2019 and attended by 30 students who were selected

It was also an impact study on the implementation of entrepreneurship programmes in institutes of higher le

The objective was to review the effectiveness of initiatives outlined under the Entrepreneurial Strategic Plan

It also set out to have a detailed framework on the direction of a new strategic plan through critical analysis of issues, challenges and inconsistencies as well as the impact on the creation of a conducive community eco

The invited speaker for the programme was Dr. Suraya Sulaiman from Alpha Catalyst Consulting.

According to Dr. Suraya, one of the main focuses of the session was to address issues between job creati hotly being debated now.

“Some of the basic things proposed included giving emphasis on entrepreneurial lesson at the primary comprehensive and structured entrepreneurial training at the tertiary level that will help to shape and shift th

“At the same time, other important elements are given equal emphasis as well such as implementing th initiatives, analysing the constraints faced and identifying opportunities for improvements, a better ecosyste

“These elements will produce competitive graduates in the future,” she said.

She added that whatever was the chosen field, these mind sets would definitely contribute to the development. What set them apart were their styles of working, their efforts and their results which were based on their competencies.

According to MyPACE Director, Associate Professor Ts. Dr. Hadi Manap, the government had organised various programmes to provide entrepreneurial knowledge so they would be better prepared in providing the best services and businesses to help contribute to the country's economic development.

"The programme is also an initiative to nurture and acculturate entrepreneurship activities in UMP," he said.

One of the programme's participants, Chemical Engineering Master's Degree student, Mohd Nazarni Othman, said that the programme provided many benefits for the university students.

"To be a job creator is not a simple thing but it is also something that is not impossible.

"One can start from a small business to gain experience and to experience the level of resilience before starting larger-scale activities," he said.

The programme started with a discussion session with MyPACE management that centred on the function, role and responsibilities of the participants.

Later, the participants and programme coordinators focused on the learning aspect provided by the university.

Wonders of Oud reveals the uniqueness of agarwood

The uniqueness of agarwood is well known in our society.

Its uses in various fields such as perfumes, cosmetics, traditional medicine, beverages, and architecture reveal its

UMP has published a book entitled Wonders of Oud which describes the aspects of scientific research and opportunities. This book has five chapters discuss the secrets of agarwood.

Chapter 1 is about the oil contained in agarwood, which is the key ingredient in the manufacture of perfume. It has not penetrated the West until it is acknowledged as perfume in the 21st century.

Chapter 2 discusses the uses of agarwood in beauty and personal care. However, its use is still in the early stages in the perfume industry.

In Chapter 3, the readers will get to know about the use of agarwood in traditional medicine. Since ancient times, it has been used to treat various diseases. This chapter also describes the potential and current value of agarwood in the pharmaceutical industry.

Also, Chapter 4 discusses the use of leaves of Aquilaria (the plant that produces agarwood) as agarwood substitute. It also discusses the demand of the leaves of Aquilaria in various countries and the related studies conducted, such as to prove the truth or myth.

The final chapter summarises and answers the secrets of agarwood.

As a responsible society, we must realise the importance of preserving natural treasures for the future.
