## Research

### High-level disinfectant can kill human coronavirus in 30 seconds

25 August 2020

Kuantan, 18 August 2020 - Researchers from the Faculty of Civil Engineering Technology (UMP) successfully developed a high-level disinfectant (HDL), Diaclean Pera Sterilant with peracetic acid from food vinegar that can kill 99.99% of microorganisms such as bacteria, virus

Professor Dato' Dr. Zularisam Ab Wahid, who led the research, said this disinfectant has been tested at an international laboratory Viroxy Lab.
