Dr. Aiman invents laser brazing connection innovation

12 November 2020

Pekan, 12 November 2020 - A researcher from the Faculty of Mechanical and Automotive Universiti Malaysia Pahang (UMP), Dr. Aiman Mohd Halil, 32 has carried out a research project to improve the strength of metal joints and reduce the cost of fabrication by implementing material surface texturing technology in the laser brazing process.

This Johor-born who received his doctorate degree at Osaka University, Japan, started conducting research on laser brazing technology in 2015.
