Ts. Dr. Lee Khai Loon creates specially designed chalet management system f

Tue, 05/11/2021 - 10:17

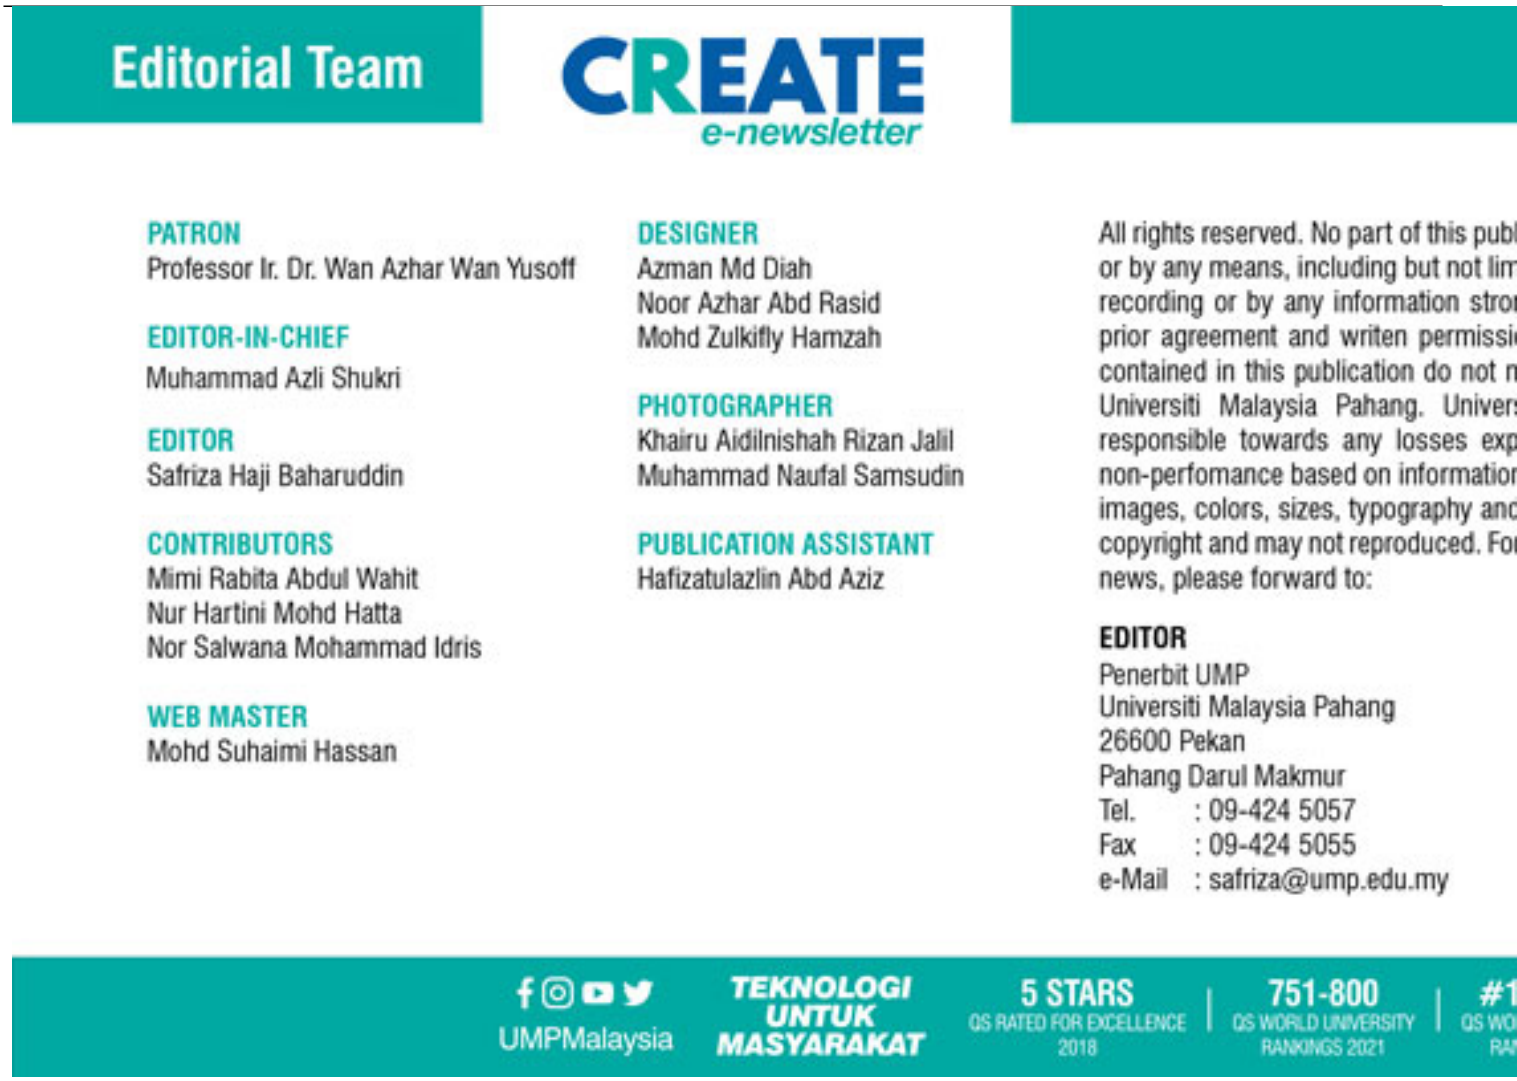

A lecturer from the Faculty of Industrial Management (FPI), Universiti Malaysia Pahang (U created a research product called ChaMs.

According to the Penangite, ChaMS is a chalet management system based on a spe enterprises (SMEs) in the hotel industry.

“This software is easy to use and involves low cost and affordable for SMEs.

“It is also user friendly and only requires minimal computer skills.
