### [Associate Professor Ts. Dr. Devarajan developed a Bio-Hybrid eco-friendly engine](#)

16 March 2022

PEKAN, 17 March 2022 – In order to create a more efficient engine, various researches have been conducted to find a suitable coolant.

After taking a look at the potential in the market, Associate Professor Ts. Dr. Devarajan from the Mechanical Engineering College (KKEJ) of Universiti Malaysia Pahang (UMP), has successfully created a bio-hybrid engine that can reduce the equipment's temperature quickly which is also eco-friendly.
