ChM. Dr. Wan Norfazilah invents environmentally friendly waterproof spray for f

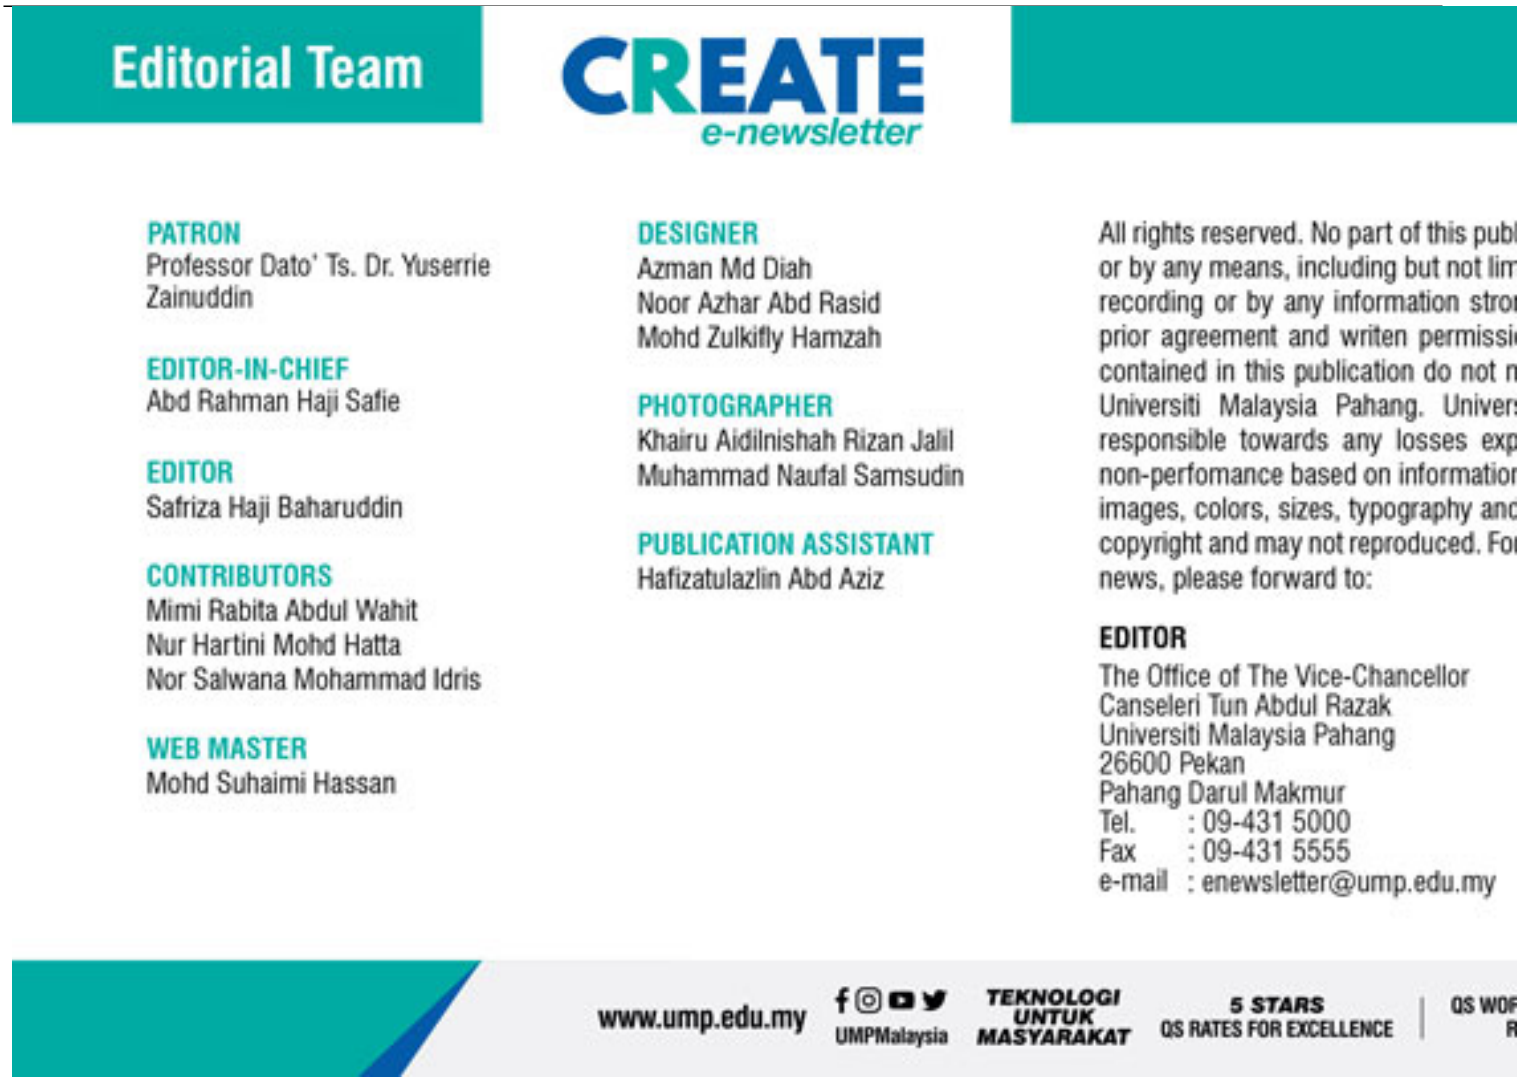

Wed, 06/15/2022 - 12:38

PEKAN, 15 June 2022 - There are many waterproof spray products for fabrics, but most c
toxic, harming human health and the environment.

Starting from that problem, ChM. Dr. Wan Norfazilah Wan Ismail, 34 has produced GetDry
solvent by using a production method called the sol-gel method, a simple, fast and cost-eff

According to her, water use can also reduce production costs.
