[Dr. Khairul Anuar produces CLINKROOF, sustainable green roof system](#)

16 January 2023

PEKAN, 27 December 2022 - Flash floods and rising temperatures in big cities due to urbanisation and climate change in local and international media are happening more and more often lately.

This situation has sparked an idea for the lecturer of the Faculty of Civil Engineering Technology, Universiti Teknikal Malaysia Melaka, Dr. Khairul Anuar Shahid to produce CLINKROOF that could reduce the potential for flash floods and rising temperatures in big cities using solid waste from palm oil mills through green roof construction.
