From Letters to Literacy: Empowering Preschool Teachers to Implement the Series Using the CREATIVE Approach

4 August 2025

The importance of English proficiency in Malaysia has always been emphasized, more so in our national aspiration to remain globally competitive. English is not only a second language but also instrumental for accessing knowledge, communicating and negotiating, as well as beyond national borders. As we look at efforts to improve English language education across the country, one area that requires attention would be early childhood educators.
