UMP Bags 10 Medals and the Best Award for Consumer Electro

A highly efficient light-emitting diode (LED) system known as MP-Rediac LED Stick was awarded a gold m
Consumer Electronics" in the Malaysia Technology Expo (MTE) 2020 which was held for three days from
Center (PWTC), Kuala Lumpur.

This product was invented by Ts. Ikram Mohd Rashid from the Faculty of Electrical & Electronic Engineerin
a unique feature where it does not produce heat at high temperature and does not require heat sink

The efficiency of the LED UMP Rediac system is high at 157 lm/W. This LED system can be applied not on floodlights, street lights and other LED applications. This product can also solve the problems faced by nigh users to obtain a light source at night. This product is mobile and does not require a pow

The other three gold medals were won by Dr. Chin Siew Choo from the Faculty of Civil Engineering Techr Sustainable Building Materials, Ts. Dr. Waheb Abdul Jabbar Shaif Abdullah from the Faculty of Electric (Project: NB-IoT-FMWS) and Nor Azhar Ahmad from the Faculty of Computing (Project: HeDoo Space Analysis Modules & Generic Circuit Board).

Meanwhile, UMP bagged six silver medals through Associate Professor Dr. Agus Geter Edy Sutjipto (Fac Development of Inert Ceramic for Industrial Application), Dr. Mohd Shaiful Zaidi Mat Desa (Faculty of Che Development of Improved Durability and Low-Cost Solid Ankle-Cushion Heel [SACH] Prosthetic Foot), Dr Engineering Technology, MD Solution: MD Compact Unit for Industrial Wastewater Treatment), Associate Computing, Efficient Distributed Database Replication Systems for Online Selling Website), Dr. Wan Isn Enhancement of Single Path to Multipath Clustering in Wireless Sensor Network for Energy Conservatio (Faculty of Computing, Rex-Chain: Root Exploit Detection and Blocko

The participation and success obtained by UMP is a positive sign and a proud moment when the research participation also opens collaboration opportunities with the industries including small and medium enterp ultimately benefits the public, in parallel with the UMP tagline, Communitising

UMP Targets 4 Strategic Objectives towards the Best Technological University by 2050

Universiti Malaysia Pahang (UMP) has laid the foundation in achieving excellence for UMP Strategic P
objectives, which are (1) producing holistic community-driven graduates through high-level Technical and
(2) communitising technology, (3) generating new advanced technologies via research initiatives and (4
sustainability.

In line with the UMP vision of becoming the best technological university by 2050, the UMP Vice-Chancell
emphasised that the university must have the world-class characteristics and most importantly is to have
autonomous status.

He also said that UMP currently has over 86 percent of lecturers with PhD and in realising the target by 2
field specialists in inventing new technologies and developing an efficient, effective and respected manage
the university.

In increasing the number of collaborations with international universities especially in Germany and China
addition to the partnership with the Karlsruhe University of Applied Science (HsKA) Germany, the collabora
Ltd. in Shenyang, China, as well as educational institutions in China allows students to complete two yea
another year for industrial training in SIASUN.

According to Professor Ir. Dr. Wan Azhar, UMP is clustered under the Malaysian Technological University
capabilities of the country through high-level TVET programmes
