[Ts. Dr. Norazlianie produces portable carbon membrane for hydrogen purification](#)

7 October 2020

Kuantan, 29 September 2020 - The new carbon membrane producers that offer supported carbon membranes in large quantities prove that the current market focuses more on competitive and advanced technologies.

The auspicious patent development for this type of membrane in the last 5 years has made it more competitive. The research was conducted by Ts. Dr. Norazlianie, Lecturer in the Faculty of Mechanical and Automotive Engineering Technology (FTKMA), Universiti Malaysia Pahang (UMP), Kuantan, to produce portable carbon membrane for hydrogen purification.
