Exploration Dive: Finding the Frogfish

10 June 2021

A couple months back, my team and I went to Perhentian Island in Terengganu for a project, assisted by Mr Azharil Art from D'Lagoon Dive Centre, which was recommended by Mr S... who is a very well experienced diving instructor. We spent quite some time there with a research related to marine life and the underwater environment. Nonetheless, this was focusing on frogfish, including its behaviour, habitat, and species.

Congratulations to UMP
