7 March 2022

Risk analysis aids in the framing of decisions, predictions, and the identification of policy gaps. And, for that matter, why, every January, the World Economic Forum releases the Global Risks Report, which serves as a guide to the world's most pressing risks.

In its 17th edition, the report pushes executives to go beyond the quarterly reporting cycle and think about long-term strategy.'

In 2020, the previously speculative possibility of a pandemic became a reality.
