UMPSA forms strategic collaboration with 12 industries involving Work

11 September 2023

PUTRAJAYA, August 25, 2023 - Universiti Malaysia Pahang Al-Sultan Abdullah (UMPSA) has entered into a strategic collaboration with 12 industrial organizations to strengthen ties between academia and industry. This collaboration aims to enhance engagement, research, and development, benefiting both parties involved.

23 October 2023

PEKAN, 18 August 2023 – Cupping therapy is a form of alternative medicine that is widely practiced in European communities.

This therapy is still practiced today by using various alternatives such as manual suction of areas without the need to shave.

However, this method is not very user-friendly and has the potential to cause skin blisters as it can stick to the skin.

Harnessing Real-World Projects: A Strategic Proposal for Industry Engagement in Malaysia's Technical Universities

21 September 2023

As the financial landscape of higher education evolves globally, innovative solutions are needed to ensure the sustainability of technical universities. One such approach involves the transformation of classrooms in Malaysia's technical universities into project-based learning environments where academic staff mentor students to develop real-world solutions for projects provided by industry partners. This dual approach aligns with national policy goals and serves a dual purpose: acting as an income source and preparing students for the workforce.
