Associate Professor Dr. Roslinazairimah produces electricity forecasting

15 July 2024

PEKAN, 27 May 2024 – It is common knowledge that the use of electric cars in Malaysia is increasing, attracting the attention of Malaysian automotive enthusiasts and consumers.

However, the increasing use of electric cars will also affect the generation and distribution of electricity. As the battery capacity of electric cars is large and needs to be connected to the electricity grid, it will increase the demand for electricity.
