UMPSA remains the country's number 1 best technical

Universiti Malaysia Pahang Al-Sultan Abdullah (UMPSA) has maintained its position as the top technical university in the Malaysian Technical Universities Network (MTUN) for three consecutive years.

The announcement of the Times Higher Education (THE) World University Rankings 2025 on 9 October 2024 placed UMPSA globally and as the 8th best university in Malaysia overall, and the 6th best public university, following Universiti Kebangsaan Malaysia (UKM), Universiti Sains Malaysia (USM), Universiti Teknologi Malaysia (UTM), and Universiti Malaya.

UMPSA, the 16th public university established by the Government, offers higher education programmes for over 20,000 students and serves as the most advanced provider of high-level TVET programmes in the country.

UMPSA Vice-Chancellor, Profesor Dato' Ts. Dr. Yuserrie Zainuddin said that this success further strengthens the university's position among top universities and highlights its production of impactful research and innovation across various fields.

UMPSA Recognised as the Best Technology University for Sustainability Globally

Universiti Malaysia Pahang Al-Sultan Abdullah (UMPSA) continues to excel as the best technology university globally in the UI GreenMetric World University Rankings (UIGWUR) 2024, recently announced.

This achievement places UMPSA as the number one university in the Malaysian Technical University Network (MTUN) among 60 listed higher education institutions (HEIs).

According to the Deputy Vice-Chancellor (Research and Innovation) who is exercising the function of the Vice-Chancellor, Prof. Dr. Mustapha, this ranking marks an improvement for UMPSA, rising six places from 68th in 2023.

“The UIGWUR, which measures green and sustainability initiatives, was established by Universiti Teknologi Malaysia (UTM) in 2012.

“UMPSA has made impressive progress in empowering sustainable practices through various initiatives, including the establishment of the UMPSA Green Campus and the UMPSA Sustainability Centre.

“This success reflects UMPSA’s commitment to developing a sustainable and resilient campus environment that meets the needs of the future generations.

UMPSA and NIT Yonago College strengthen relations through Edu-Tourism

A total of 11 students accompanied by Professor Morita Shiota from the National Institute of Technology (NIT) Nagano participated in the Edu-Tourism Summer Programme 2024 organised by the Centre for International Relations (CIR), UPM.

According to the Director of CIR, Associate Professor Dr. Mohd Azmir Mohd Azhari, the programme sought to provide participants with a comprehensive experience.

“Through this programme, we hope participants will not only gain academic knowledge but also experience the local culture and environment of Malaysia.”

“This programme also serves as a unique platform to strengthen collaboration between UPM and NIT Nagano.”

“Participants had the opportunity to interact with local students and academic staff, building close friendships and fostering collaboration between the two institutions,” he stated.
